REF: FA1541

Height: 34 cm (13.4")

Width: 23 cm (9.1")

Description

An exceptionally rare and imaginative set of F&C Osler pendant lights, each featuring a finely cut glass star suspended within a crescent moon. The star shades are beautifully faceted to catch and refract the light, producing a dazzling constellation effect. The silvered fittings are intricately detailed with foliate scrolls and suspended with twisted cable, combining celestial whimsy with Edwardian refinement.

These pendants encapsulate the early 20th century's fascination with astronomy and romantic symbolism, making them both decorative and delightfully distinctive.

Min height 34cm - max 110cm with current cable
