Description

A wonderful Nuremberg goblet, having a large round funnel bowl engraved in the manner of Johann Wolfgang Schmidt, a woodland hunting scene with a stag and doe along with a hare and a fox being chased by three hounds and two hunters, one on horseback. This all within a continuous landscape containing a variety of different trees, stylised birds in the sky above, a formal stiff-leaf border below. The bowl sits upon a stem with hollow blown knops separated by multiple mereses, all on a large conical foot engraved with a leaf garland.
